

REWIND honor teachers and students

REWIND, a local non-profit organization dedicated to education, stewardship and recycling of electronic waste, is pleased to announce its first annual Awesome Teachers and Awesome Students Awards. These awards are available to teachers and students in Carbon and southern Stillwater Counties. Next year they hope to give awards to some Awesome Parents as well, said Gwen Williams, Volunteer Director REWIND / RLACF.

Kate Belinda, science teacher at Red Lodge High School, encouraged her students to teach mini-classes for kids in the lower grades about recycling electronic waste on Earth Day. Dallas Powell-Cox, Taylor Nuttall, and Keegan Engebretson pre-

pared and taught numerous classes with thorough knowledge of electronic waste. The kids in each class then created post-it note pictures about e-waste and each class's pictures were put into a collage. Belinda was awarded \$50 towards school supplies and given a "Special Teacher" stuffed apple. Dallas, Taylor and Keegan were awarded \$10 Subway Gift Cards. The post-it note collages are on display at First Interstate Bank in Red Lodge.

Jeanette (Mitzy) Carter, business and accounting teacher at Roberts High School, encouraged her students to describe electronic waste in posters. Mrs. Carter was awarded \$25 towards school supplies and given a "Special Teacher" stuffed apple.
