

Thank you for participating in REWIND. Because of your efforts today, you have prevented dangerous materials from going into landfills, and have ensured that your old electronics will be recycled in a safe and secure way.

Your electronics will be processed by ECS Refining, whose state of the art electronics facilities are e-Stewards and R2 Certified, designed to maximize materials recovery and eliminate harmful waste through a shredding and separation process that safeguards workers, the environment and the safety of any personal information.

This event is made possible by volunteers with the donations and support of our sponsors and the community. Funds raised are used to provide educational outreach, secure appropriate permits, and raise awareness by promoting the event.

REWIND donations are appreciated, and will go toward financing the next Red Lodge electronic recycling event. If you like, you may support REWIND by leaving a donation in the jar near the unloading area today, or you may designate REWIND as a recipient for your Fun Run contribution. Many of our volunteers are from the Lions Club, which is dedicated to providing service to the community. The Lions also appreciate Fun Run donations, or you may wish to purchase a raffle ticket for their current fundraiser. That raffle offers drawings for a different trip each month--12 chances to win for a \$120 ticket. Tickets may be purchased from any Red Lodge Lion, at Coal Creek Realty, at Moon Lake Market, or at Merv Coleman Studios.
